# LESSON PLAN

## How to Spot Scams

GRADES

7 to 12

TIME

45 minutes

### OVERVIEW

With the rise of digital communication, scams have become more advanced, targeting people through emails, text messages and social media platforms. This lesson provides students with strategies to identify scam tactics, assess the authenticity of messages and take appropriate actions to protect themselves.

### GOALS

- Help students identify different types of online scams and scam tactics
- Help students develop critical thinking skills to evaluate the legitimacy of messages

### OBJECTIVES

- Identify red flags in emails, text messages and social media posts that signal scams
- Analyze message mock-ups to recognize common scam tactics such as phishing, urgency and impersonation
- Outline the steps to take when reporting a scam

### ASSESSMENT

Use the activity in this lesson plan to assess students' grasp of the topic. An optional quiz is also provided (the quiz is not factored into the lesson's 45-minute runtime).

**Did you know?** This lesson plan explores concepts from Standard 6 (Managing Risk) from the **Council for Economic Education's National Standards for Personal Financial Education**.

### MATERIALS

- ☐ **VIDEO 31**—How to Spot Scams
- ☐ **HANDOUT 31**—How to Spot Scams
- ☐ **PRESENTATION 31**—How to Spot Scams
- ☐ **ACTIVITY**—Scam Detective and Answer Key
- ☐ **QUIZ**—How to Spot Scams and Answer Key

### PREPARATION

- Gather digital materials (video and presentation)
- Print **HANDOUT 31** for each student
- Prepare the **ACTIVITY**: Print and cut out at least one copy of each message mock-up (pages 2–5). Print a copy of the worksheet (page 1) for each group.
- Prepare a copy of the **ACTIVITY** for in-class display
- (Optional) Print **QUIZ** (How to Spot Scams) for each student

## How to Spot Scams

- 8 minutes** Brainstorm and show **VIDEO 31** (*How to Spot Scams*)
- 10 minutes** Go over **PRESENTATION 31**
- 25 minutes** Divide students into small groups and distribute the **ACTIVITY**; go over the correct answers together as a class
- 2 minutes** Distribute **HANDOUT 31**
- (Optional)** Assessment: **QUIZ** (*How to Spot Scams*)

- Allow groups 5–10 minutes to complete their worksheets
  - Bring the class back together and display each mock-up for everyone to view
  - Have each group present their findings
5. Wrap up by sharing the following:
    - If you receive a suspicious message, report it to the appropriate platform, notify any companies or individuals being impersonated and share the information with others to help them stay alert
  6. Distribute **HANDOUT 31** for students to take home.
  7. (Optional) Distribute **QUIZ** for individual assessment, or answer the questions together as a class; decide whether or not students can reference their notes/handouts during the quiz

1. Begin with a quick brainstorm and record a few ideas on the board. Ask students:
  - What do you think are the most common scams you see online or through messages?
2. Show **VIDEO 31**
3. Go over **PRESENTATION 31** to highlight and expand on scam types identified during the brainstorm
4. Distribute the **ACTIVITY**
  - Divide students into small groups
  - Evenly distribute the “evidence” (mock emails and text messages) among the groups
  - Instruct students to analyze their assigned evidence; ask them to identify the type of scam being used and any red flags that indicate it is a scam
  - Provide each group with a worksheet to record their findings

# QUIZ

## How to Spot Scams

NAME: \_\_\_\_\_

TOTAL  
/ 7 pts

### MULTIPLE CHOICE

Directions: CIRCLE the best possible answer from the given options.

1. What is the best way to check if a link sent by email is safe?
  - a. Click the link and take a screenshot
  - b. Hover over the link to see the real website
  - c. Copy and paste the link into your browser
  - d. Open the link in private browsing mode
2. Which of the following is **not** typically a tactic used by scammers?
  - a. Authority – Pretending to represent a respected organization
  - b. Urgency – Making you feel like you have to act fast to avoid trouble
  - c. Transparency – Offering clear information about terms and conditions
  - d. All of the above

/2 pts

### MATCHING

Directions: Match each scenario with the correct scam type. Write the letter of the scam type on the line next to the scenario.

A. Unexpected Winnings

B. Get-Rich-Quick Schemes

C. Threats and Extortion

D. Identity Theft/ Phishing

- \_\_\_\_\_ 3. A caller claims to be the police and pressures you to pay a fine with gift cards
- \_\_\_\_\_ 4. A social media post promises you'll double your money in 24 hours by buying into a cryptocurrency investment
- \_\_\_\_\_ 5. You get a text from your bank asking to confirm your account number and password
- \_\_\_\_\_ 6. You're told you've won a car but must pay delivery fees to receive it
- \_\_\_\_\_ 7. A scammer claims they hacked your device and demands payment to keep your personal data private
